TESTIMONIALS:

This game is so much fun! It was the highlight of our Thanksgiving. Can't wait to play again next year!
—Mary, Lexington

My family and I played the game on Thanksgiving and had a great time. We found a better use for the game three weeks later. The day after we buried my mom, we all gathered together and played using things we were thankful for involving Mother. The laughter poured, the tears trickled and the memories were alive again just like they had happened yesterday. Our eyes were open to see that our mother and grandmother had connected with each of us in her own way. None of that would have been possible if it hadn't been for The Thanksgiving Game. Thank you!!!

—Virginia, Versailles

Thank you for creating The Thanksgiving Game. After life behind bars, I know the game is fun to play with strangers, but so much more fun with the family that loves you and wants you with them. I know it will be a blessing for years to come.
